IBY DIRECT WIRE TO THE TIMES.

PARIS, May 25.—[Exclusive Dispatch.] The St. Petersburg correspondent of the Petit Pariseane telegraphi: "The report that Gen. Fock defeated the Japanese at Kinchow is confirmed. The Russians lured the enemy into a defile, commanded by two guns, which decimated them. The Russians lost one captain and 140 men. The Japanese loss is reported to have been much heavier."

The War Office today received several dispatches from Gen eral Kouropatkin, reporting various strategic movements. It appears that Kouropatkin has decided to take the offensive.

BATTLE AT SAN SURIPO.

[BY THE ASSOCIATED PRES-P.M.] CHEFOO, May 26, 11 a.m. - A junk which left Dalny on the night of the 23d and which arrived here goday, reports that the Japanese army had then reached San Suripo, which is north of Dalny and southwest of Nangalien. The Russians offered a stubborn resistance to the advance of the Japanese, and a battle was tought at noon of the 22nd at San Suripo. The result of the battle was not learned by the bearers of the news.

The advance of the Japanese indicates that they have recov ered from the reported reverses at Kinchew. The Russians at Talienwan have prepared to destroy the town upon the arrival of the Japanese. The Russian plan is to have the troops on the Liso Tung Peninsula fall back to Port Arthur after harassing the invaders

From the best information obtainable, it is learned that the Japanese have landed near Kinchow and are advancing along the railway to Port Arthur. Those that landed at Pitsewo are traveling down the east side of the peninsula to Dalny, and those that landed at Takushan are going to reinforce the Feng Wang Cheng

MAIN ATTACK POSTPONED. Japan, under date of May 25, says that Japan, under date of May 25, says that only minor operations are now proceeding on the peninsula of Liao Tung, and that the main attack will be post-poned for some time. At present, the dispositions of the Japanese army on the peninsula seem to be as follows:

The First, Third and Fourth Divisions of the Second Army have already been landed, and the Flith and Eleventh Divisions are now on the there are indications, such for instance, as the sinking of the battleship the Ninth and Thirteenth Divisions are now on the there are indications, such for instance, as the sinking of the battleship the Ninth and Thirteenth Divisions are now on the there are indications, such for instance, as the sinking of the battleship the Ninth and Thirteenth Divisions are now on the there are indications, such for instance, as the sinking of the battleship the population of Russia has been greatly atimulated by the war.

The Standard's correspondent at the headquarters of the Japanese First Army, under date of May 23, says there is no change in the situation. The Russians seem to be perfectly content to remain on the defensive, and are igorously strengthening their posi-ion, with Liao Yang as the base. They are a little more active, however, northeast of Féng Wang Cheng, where the patrols of both armies are in touch almost daily.

SENSATIONAL STATEMENTS,

The Standard publishes a dispatch from a Russian correspondent in whom the paper says it places great confidence, containing most sensational statements regarding the alarming ndition of Russia as a result of the war. The correspondent asserts that disturbances in various cities have been followed by wholesale executions with out any civil trial. It is said that 600 persons have been hanged in Warsaw alone, and that many others have been hanged in Kronstadt and Mos

At the latter place, the troops buried eighty coffins containing the bodies of those who had been hanged. The bodies were buried secretly in the dead of night, presumably in the woods. This correspondent asserts that the war has resulted in the utter parsiyais of all business, and says that even the most sober-minded are drawing ominous conclusions from the significant fact that regiments stationed in Europe have been retained in their places, and that only reserves have been mobilized for the front.

The Standard, in an editorial, says it publishes this correspondent's statement under all reserve, but it thinks

The new company will be formed on a strict basis of actual valuation. At the meeting it was decided to include only about seventien or eighteen of the larger broom companies of the country and, to put the capital stock at about \$4,000,000.

'One of the advantages of the merger is said to be uniformity in the manufacturer of brooms, for, instead of there being ten parties to each individual factory, there would be ten standard kinds for the entire country. Brooms will also be shipped from the nearest factory and all settlements will be made through a central office."

REDDING. May 25.—According to the story of Joe Jones, a negro who is serving a term in Jail of Tehsima county for vagrancy, he was stealing a ride on the top of the express car of the Oregon express when it was held up at Copley. March 30.

He claims that he was a witness to all the excitting incidents of the hold-up and he only left his place on the top of the car, when he realized from the talk inside that the car was to be blown up. He says that he then ran along the tops of the cars toward the rear of the train and jumped off the last car, much to the fright of the number of passengers gathered there.

The negro's story is to be investigated.

The Michigan atheltes, who, for three years, have carried away honors when the conference was composed only of the exclusive "big nine." are thought to be in danger of losing their place in the front rank with the entrance into the lists of outside men. Stanford, among the universities which have been hitherto excluded from the meet, is considered one of the strongest rivals among the recruits, and threatens to detract from Michigan's chances of winning, at the st. me time making the meet one of the most closely-contested in years.

Lotal experts are algedy predicting that the Coast team will carry away several firsts and many points in the seconds and thirds, and that, owing to weakness in the Michigan ranks, the Coast team stands a first-rate chance of winning the entire meet.

TYNER AND BARRETT. ACQUITTED OF CONSPIRACY.

ACQUITTED OF CONSPIRACY, FRY THE ASSOCIATED PRESS.—F.M.]
WASHINGTON, May 25.—Within twenty-two minutes of the retirement of the fury, in the case of James R. Typer and Harrison J. Barrett, tried on charges of conspiracy in connection with their duties as law officers of the Postoffice Department, a verdict of not guilty was rendered. The throng which filled the courtroom throughout the arguments to the jury, hardly had time to leave the building before the jury was back and the foreman announced that a verdict had been reached. Gen. Typer, expecting a longer wait, had been wheeled, from the room, and his pephew and co-defendant hastened to give an order which caused him to return.
Gen. Typer appeared greatly excited as he attempted to face the jury, and when the verdict was returned he broke down completely. Several of the jurors wept with him.
The Typer-Barrett case was begun may 2, and has been before the contion insteen full days. The principal arguments made todar were by A. R. Worthipston, for the defense and Maj. Holmes Goursd. special connect for the government, for the prosecution. The latter directed his efforts almost entirely to an attempt to contravact any influence on the juror werdict which might result from sympathy with Gen. Typer, nor the joung wife of Barrett, who was a witness in the deen endant's behalf.

WASHINGTON. May 25.—The situation politically in Hayti is undoubtedly bad, according to reports received at the State Department. It is stated that the animosity against foreigners, almost without regard to nationality, is steadily increasing and the last advices are that in many places throughout the republic placards have been posted denouncing foreigners.

While the reports give no specific reasons for the developments of this anti-foreign feeling, it is supposed here to be the result of some of the disciplinary measures threatened by the German feet recently in connection with the imprisonment in Port au Prince of foreign officials of the Haytien National Bank on charges of un-NTI-FOREIGN FEELING.

COMPLAINT AGAINST BRAZIL

LODGED WITH SECRETARY HAY. WASHINGTON. May 21.—Dr. Calderon, the Peruvian Minister to Washington, list made a long verbal presentation of his grountry's grievances against Brazil to Secretary Hay. These relate particularly to the action of Brazil in preventing the ascent of the Amazon to Peruvian oversels carrying arms and munitions of war into the Peruvian headwaters of the riyer. It is alleged that these arms are inetheded, not for the soldiers of Peru, but for the settlers and foresters in the wild rubber country, to whom they are an absolute necessity.

Secretary Hay impelled by a desire to prevent a possible war between the friendly republic, suggested to the Brazilian government through Minister Thompson that the United States government would be very much pleased if Brazil and Pesu would confer in a spirit of mutual concession, and settle the vexed Acts question between themselvs, or if that is not possible, to then agree to submit the question to arbitration. This apparent wanton desecration of tombs in a land imbuded with the spirit of ancestor worship has caused excited denunciation of the Russians on the part of the Seoul officials. While the War Office does not discredit the persistent rumors of fighting at Kinchow, it has no information of any collision since May 14, when Gen. Fock made a recompossance in force to determine the strength of the enemy. The General Staff is inclined to believe that it will require sometime for Gen. Oku to prepare for active operations against Port Arthur. Siege guns are considered an absolute prerequisite, as the water is too shallow to permit heavy warships to get within effective range. The movements of the Cossacks in the rear of Gen. Kuroki are being carefully guarded. There is no official confirmation of the reports that the Japanese have abandoned Feng Wang Cheng.

NEW CHICAGO CULT OUT. CHICAGO, May 25.—[Exclusive Dispatch.] Invading the realm of Chicago labor unions, "The Spirit Fruit Society" of Lisbon, O., proclaiming a new religion, promising to all mankind a living without money, happiness, peace and uinversal love, has lured away from the excitement of strikes several prominent leaders. Jacob Belicart, originator of the new cult. is described as absolutely selfiess and every one who follows him must renounce all earthly benefits for the good of others.

"Jacob gave up his great farm to others," said Herman Kuehn, one of Belicart's disciples, "Whosover will, may go, and share in it. Of course, you may misconstrue what I mean when I say Jacob is to us what Jesus Christwas to His apostles." CHICAGO, May 25.-[Exclusive Dis

Settle With Telegraphers. OMAHA (Neb.) May 25.—The offi-class of the Union Pacific today com-pleted a settlement of hours and pay with the telegraph operators of the system and a new schedule was signed. The negotiations have been in progress for three months. The details of the settlement are not made public, but it is said that the telegraphers were granted better hours and increased pay in a large number of places.

Large Half Acre Lots for Less Money than is Usually Asked for Small Lots. No Interest, No Taxes and No Charge for Water During 1904. A Perpetual Water System a Gift to the Buyers

The RAMSAUR TRACT contains 120 acres of the finest soil in the world, where a family can raise their own fruit and vegetables and keep from 300 to 500 chickens—keep a cow and raise all their small berries. In fact, a living can be made on this ground if rightly conducted. It is a well-known fact that the half acre of ground well cultivated and irrigated in Southern California will produce more food than three acres of the best Eastern ground. You can not only have your garden and raise your own vegetables, but you can raise peaches, apricots, apples, plums, oranges, lemons, grape fruit, loquats and the most delicious grapes in the world, and for small fruits there is no better soil on earth—Strawberries, blackberries, raspberries and Loganberries.

They are not satisfied with the mere exercise of their own rights, but they insist upon interfering with the rights of other men, which are as sacred as their own. The disturbances which accompany nearly all strikes are due primarily, in almost every case, to attempts by unionists to take away from other men the rights which they, the unionists, are free to exercise at their

pleasure. The same laws that protect the unionist in his inalienable right to carn a living by honest work, protect also the non-unionist. Before the law he rights of both are equal. Before the tribunal of public opinion, which makes and unmakes laws, the rights of both are also equal. recently before the social science committee, a Harvard student organization, President Eliot said:

"The habitual effort of trades unions to create a monopoly in labor, each in its own trade, is a hostile effort against the community as a whole; for they seek by this means their own pecuniary benefit at the expense of the rest of the community. The boy-cott is a method of combat which is eminently a method of ill-will. It is a gross interference with just industrial liberty. As they have grown powerful the unions have themselves become exclusive and oppressive, and their former altruistic apirit has been corrupted by class selfishness. The plain fact is that the proscription of non-union men, the strike in sympathy or in support, and the boycott, are weapons which angels and saints could not use without being demoralized." In attempting to enforce the principle of the closed shop by violent and lawless methods, the unions have undertaken a task which they can

It is remarkable on account of the superior quality of the material used, on account of the excellency of style and workmanship, and on account of the great price reductions which we offer on these Petticoats. There are about 500 ladies' petticoats in the lot. They are all new, perfect garments in this season's latest styles, and come in every conceivable shade and a good line of black.

**Tomorrow Morning** we will place the entire assortment on sale at prices which will enable many to secure a silk petticoat who heretofore consid-ered them a huxury. In many case more than one-third will be cut off the usual price, as you will see by reading the following reductions:

\$6.90 Silk Skirt reduced to ..... \$4.00 \$7.00 Silk Skirt reduced to ..... \$4.50 \$8.50 Silk Skirt reduced to ..... \$5.00 \$10'50 Silk Skirt reduced to ..... \$7.00 \$12.00 Silk Skirt reduced to . . . . . . . . . \$8.00 \$13.50 and \$15.00 Silk Skirts reduced to . . \$9.00 \$16.50 and \$18.00 Silk Skirts reduced to . . \$10.50 \$25.00 Silk Skirts reduced to ..... \$15.00

Imported Petticoats at Half. In addition to this assortment we will offer a line of imported Silk Petticoats at about half their regular price. These Petticoats are samples from a famous French maker and are mostly extreme novelties never before shown in this country. We offer regular \$30.00 to \$35.00 values at prices ranging from \$10.00 to \$35.00 each. ich. La papera for a special sale of ribbons which will takeplace lighterary.

REMEMBER this is a new store, with a new stock; we have no old, worn out or second-hand pianos—everything is new and first-class. Each plano has a special price during this sale. Eve want you to come and get acqualated with us and learn our methods. These special prices apply only during the first week in June: if you are not prepared to purchase at that time, just call at the store, or write us, and our special rates will be extended to suit your convenience. We have two carloads of planos on our floor new, and several more to follow: everything goes during this introductory sale, and there will be no haggling over prices; a reasonable price is all we will ask of you REMEMBER THE NAME—REMEMBER THE PLACE—

The Broadway Piano House, 783 SOUTH BROADWAY.

We have only a few lots left in the

**Boettcher Tract** 

which is bounded by San Pedro, Thirty-first, Griffith Ava. and Jefferson Streets. This is the best improved tract in the city—5-foot coment sidewalks and curbs, sewered streets, graded and accepted by the city and sprinkled. Two electric lines pass the tract—the Slauson Ave. line and Griffith Ave. line now being extended to Fortisth St. There are 77 modern houses built and under course of construction on the tract, one of which cost \$8000. This has all been accomplished within a year. There is a building restriction of \$1500 which insures you against any poor buildings. Price of lots \$550 to \$675, one-third cash, halance one and two yrs. at 5 per cent. There is no place in the city you can get a nice home for so little money, coosidering the location, as in this tract. Seeing is believing. Our representative at office on the tract will gladly show you the property any day including Sunday.

NEW YORK, May 25 .- [Exclusive Dispatch.] The consensus of turf experts' opinion for the morning papers on the Brooklyn Handicap, is as fol-lows: Irish Lad first, Hermis second, Hurstbourne third.

second, Hurstbourne third.

NEW YORK, May 25.—With perfect weather in prospect and at least a dozen high-diass thoroughbreds surtic start, the great Brook.yn Handicap tomorrow at Graveseneit promises to be one of the greatest rubring races ever seen on the American turf. The distance is a mile and a quarter, and the purse is valued at 120,000. Irish Lad, from the stable of Herman B. Duryes, winner of last year's Brooklyn Handicap; Hermis owned by T. R. Thomas, McChesney, in the colors of E. Smathers; The Picket from the Waldeck stables, and Africander, bearing the Hampion stable's colors, are the most-talked-of group in the list. McChesney has been somewhat backward in his work. He was left at the post in his only race this season, and later slightly injured his right forefoot. The damaged hoof quickly responded to treatment, and Smathers was so well satisfied with his workout today that the great five-year-old will undoubtedly face the starter tomorrow.

Irish Lad, with his advantage in weight, is favorite, but his work since he won the Metropolitan Handicap at Morris: Park has not been entirely ast-

iefactory. However, Irish Lad has shown his best qualities in actual contests, and Trainer Rogers has every gonddence in him.

Since the rather sensational mile made at Morris Park last Saturday by Hermis, formerly thought to be a late borse. Thomas's entry has risen wonderfully in public estimation, and he, with Irish Lad, McChesney and The Ricket, should furnish one of the grandest exhibitions of speed ever seen in this city. Those who favor Hermis say that with a good start, the horse should beat Irish Lad's time of 2:35 -5 is last year's handleap.

Africander's recent trial did not disclose phenomenal form, as he finished rather weakly in front of an inferior field Hurstbourne, from the stable of William B. Leeds, is well liked, but has scarcely shown form equal to that of his competitors.

The hope of the western horsemen is The Picket, winner of last year's American Derby. He has been especially pointed for the Brooklyn. His speed trials have been little short of mastional. He is pronounced by Trainer Reed in as perfect condition at a horse can be.

Claude, the winner of many western derbies, and second to The Picket at Washington Park last June, will also start, but he is particularly strong on a muddy track, and the Gravestend course is likely to be very fast to-racerow.

John A. Drake will not start his Functioner.

rind course is likely to be the resorrow.

John A. Drake will not start his Futurity winner. Savable, but Runnels will go. City Bank, owned by John E. Madden, is speedy, but Highball last season's champion, and most of the cibers on the entry list do not appear to be dangerous.

For Temperary Postoffice.

It is probable that the new temporary quarters of the postoffice will be located at the scorner of Grand avenue and Seventh street, where the old cable power-house stands, the building being adaptable to postoffice purposes, it is said, it is owned by John Brockman. No definite news on the subject had been received from Washington yesterday, but it has been rumored for some time that this location would probably be selected. The proposition submitted to the government by the owner includes ground measuring foxion feet adjoining on the west, on which an addition to the building already standing would probably be eracted. This would give the postoffice quarters a frontage of 111 feet on Grand avenue and 215 feet on Seventh street. Mr. Brockman owns the properly through to Hope street, and it is udderstood that he intends to erect a row of stores extending to this street, corresponding in architecture to the old power-house.

he thought her an innocent little music teacher.

He claims that his treatment of her was only fatherly, but when she told him something three months after she first began coming to see him, he thought she better take \$5000 and so to New Jersey.

She disappeared and wrote that she had a baby. The baby was born in June. In September she came back to Butte and got \$5000 more.

The detectives claim that she threatened to commit suicide in his office, and leave a note which would ruin his reputation forevermore.

The reason he compiled with her demand, however, was that his wife was sick. He took a receipt from the girl, in which she promised to consider this the end of the money bleeding.

Last October, she bobbed up in Los Angelea, taking lodgings with Mamie Driscoil, her sister.

From here she began writing him these letters, one of which forms the basis of the criminal preceedings against her. It is a curious document and does not seem to bear out her claims of "fine family."

Bessie's ARREST.

HER THREATENING LETTER.

Bessie Driscoll is a slim young woman, with wistul eyes.

She was caught yesterday trying to give the detectives the slip, having moved her trunks out of the lodgings, where she had been shadowed, at dawn yesterday morning. Finding her escape cut off, she went in terror to her attorney, J. Wiseman MacDonall, who brought her at once to Justice Austin's court.

She was perfectly bewildered with terror. When the complaint had been read to her, the court bailiff started to lead the way back listo the jail. She hung back and followed her sister and her lawyer out into the hallway, pleading like a frightened little girl.

"I don't want to go ito jail," she said, "I want to go with my sister."

At last the bailiff had to take her by the shoulder and gently force her to go with him. When they let her not go with him. When they let her not again hours later, she gazed around with strange, startled eyes like a child face to face with the dark.

Perhaps the old doctor had not been warned by the popular song to beware of "that maiden with those dreamy eyes" when she came to his office a year ago last summer for treatment. She carried a music rell with her, and

DOCTOR STOOD PAT.

The doctor firmly refused to pay another single cent. He told his wife the whole story and she stood with him Attorney MacDonnid, who was employed by Miss Driscoll, wrote the doctor, threatening suit. At last the complaint was sent on praying for \$15,000 damages, being the baiance of the suid the girl says she was to be paid. The doctor defied them all and vowed he would pay no more. He employed ex-Dist-Atty. J. A. Coleman of Butte to come to Los Angeles and begin criminal proceedings against het. Coleman arrived about two weeks ago, and the detectives began sleuthing.

The two women were found living on North Broadway with no trace of an infant. The detectives learned that she was getting money in dribbles from some one, in spite of the fact that she had received \$10,000 in ten months.

It was found that Mamie Driscoll had not gone to Santa Monica, but had taken a room on Grand avenue. The officers watched the trunks all day, and during the afternoon, Bessie Driscoll, in a fright, gave herself up.

will shake him from his statement to this effect, though his descriptions of how he brought about the confingration are visuse and seem like the wanderings of a diseased brain.

Wildrick was arrested on Boyle Heights by Officers Cooper and Paterson, shortly before midnight Tuesday, He was found wandering around and talked incoherently. When taken to the Police Station he vehemently asserted that he had fired the Cudnhy shops, but at the time no particular attention was paid to his statement. Yesterday morning he toid the laidroom when no one was looking, and remained near the scene long enough to see that his work had been well done. He asked repeatedly concernsing the progress of the fire and seemed interested in learning just how serious it would prove.

REPEATS HIS STATEMENT.

After having been removed to the County Hotpital yesterday morning Wildrick asked for the morning papers and seemed to be greatly interested in the fire. As he was charged with insanity, no particular attention was paid to his talk, but later Dr. Norton became interested in the man and questioned him closely.

A CHOICE SPECIMEN.

Nothing could have been more apit than the fate which gave to the floor the next speaker, Robert R. McRary of North Carolina. Mr. McRary is a colored man of intellectual attainments and fine appearance, and spoke with ease and choice expression. He said in part:

"As becomes a modest layman I have been a close hearer in the deliberations of this body. I submit that no question we have considered is of paramount importance to this one now under consideration. It touches the ramifications of the nome life in our beautiful Southland, and reaches out for the barefoot boy and the elevation of the race.

"If those who have aided the Educational Society could visit mot only conventions and schools, but go into our homes and see the evidences of refinement that have come to us as the result of education, they would have a still higher appreciation of the good accomplished by their gifts to the Freedman's Aid Society. There is a slavery greater than that of bodily bondage; it is the slavery of ignorance, and it is this slavery the Freedman's Aid Society can remove better than any other agency."

"Now suppose," said Dr. Buckley, the next speaker, "suppose there was

effect:

"Should the plan of the commission be adopted by the General Conference, we recommend the appointment of a commission with authority to perfect and carry out, as soon as practicable, the detail of said plan. It is recommended that the commission shall consist of seven persons, two of whom shall be bishops, and all of whom shall be appointed by the bishops."

MISUNDERSTANDING.

NO PHILIPPINE BISHOP.

Considerable steam was exhausted yesterday when the question of a missionary bishop for the Philippines was under discussion.

The report of the Committee on Episcopacy was presented by Dr. Buckley, although he had not presided over the meeting of the committee at which its conclusion was reached. Dr. Bovie presided and lisd told him of the action, and a report was made up from this heresay evidence, which Dr. Buckley read as the report of the committee. It was to the effect that it had been decided to recommised that no bishop be elected for the Philippines, and that the administration of affairs there "be left to the general superintendency."

Instantly Rev. C. W. Drees, delegate from South America, was on his feet clanoring for recognition on a question of privilege. Pointing his finger toward Dr. Buckley, and the paper he held in his hand, Dr. Brees said:

"That paper that has just been read is not the report of, the committee and such action was not contemplated by any other member of the committee and such action was not contemplated by any other member of the committee. Here was a mess. Dr. Buckley, appealed to Dr. Boyle and the latter went to the platform to say that he had given the matter fo Dr. Buckley, appealed to Dr. Boyle and the latter went to the platform to say that he had given the matter fo Dr. Buckley, though he had not vertiten it down, and to the best of his recollection Dr. Buckley had correctly presented the action of the committee. The batterles were opened promptly esterday morning in the Methodist General Conference, on the proposed acheme for the consolidation of the benevelences, but there had been a remarkable change of sentiment during the night and the proposition of the commission went through by a vote that, while showing a fair majority, lacked much of unanimity.

There was some heavy firing on both sides of the line, and to those who took in part, it was a source of entertainment. The plan adopted provides for the consolidation of the several benevolent societies of the church under the three following corporate names:

(1.) The Board of Foreign Missions of the Methodist Episcopal Church.

(2.) The Board of Home Missions and Church Extension of the Methodist Episcopal Church, or the Board of Education, Freedmen's Adand Sunday-schools of the Methodist Episcopal Church (as the General Conforence may determine.)

There was but one "count of noses" in the whole contest to indicate the division of sentiment on the question. That occurred on the motion to adopt the third proposition, when the vote was 373 in favor of the adoption and 251 against it. Owing to the interest mass of the minority, there was a perfect mass of the minority, there was a perfect mass of the minority, there was a perfect mass of the minority, there was a perfect

Dr. Robert Forbes of Philadelphia delivered some telling sentences which brought cries of dissent, as well as of affirmation from the floor.

Long Beach, that it is not a newly platted addition remote from the car lines, devoid of homes and prolific of promised improvements. Seaside Park is right in the city of Long Beach. It is accessible to all points of interest, only a few minutes from the business center of the City, connected with the Pleasure Pier, Pavilion, and Bath House by a broad promenade that is one of the popular features of Long Beach. The Water Company is established in Seaside Park, the homes there all have electric lights and gas from the same sources as other Long Beach residences, and there are numerous handsome homes owned by such people of prominence as A. J. Wallace, Charles R. Drake, Frederick H. Rindge, George I. Cochrane, H. B. Chase, Charles H. Howland, W. J. Williams and others.

With the finest transportation facilities in Southern California, now afforded by the Pacific Electric system—the trip from the business center of Los Angeles to Seaside Park being made in less time than to any other beach on the coast—with the attention of many shrewd investors being attracted to its many advantages, Seaside Park is the best residence property in Southern California today. Just consider how values have increased in Long Beach during the past year—even during the past three months—go down there Saturday and see the scarcity of good beach property, and you can not doubt that a present investment of a few hundred dollars will double and treble itself—and that, too, before many now—Saturday's a good time—today is better.

Contractor D. F. Donegan caused a mild sensation in City Hall circles yesterday by presenting to the secretary of the park department a bill for \$1200 for \$000 cubic yards of earth used in filling, the southern extension to Echo Park. No contract had been signed by the City Council, and no requisitions had been presented to the Supply Committee, but Donegan insisted be had done the work under the instructions of the City Superintendent of Parks, and was entitled to the money.

Under the provisions of the city charter no city official can contract for supplies. For bills larger a contract must be made with the City Council and be approved by the City Attorney.

supplies. For bills larger a contract must be made with the City Council and be approved by the City Attorney. A city ordinance also provides that no bills shall be paid for supplies or extra labor unless a requisition is obtained from the Supply Committee before the order is given. No explanation could be got from Superintendent Legrand, because he is in San Francisco. Minutes of the Park Commission make no mention of authorization from the Park hoard for contracting a bill for filling in Echo Park.

Chairman Davenport of the Supply Committee said he will never sign requisitions for payment of the money. That bill has no standing before the Council, and never can have, said Davenport. "Our city charter expressly forbids its payment. If the Park Superinendent ordered that work it was without official authorization of any kind, and it is to him personally that the contractor must look for payment. Our entire purchasing system is arranged as it now is for the protection of the city treasury against demards of this sind. I shall refuse to sign requisitions for the work, and if an attempt is make to lobby the bill through the Council I will fight it."

Park Secretary Hopkins said he never had heard of any contract between the Park. Superintendent Legrand and Donegan for filling in Echo Park, and the bill was the first notification he had received.

the bill was the first notification he had received.

Mayor Snyder tried to smooth out the tangle by saying the demand was in linest regular, but that it had been presented in an irregular manner. "Mr. Legrand consulted with members of the commission over the work," said the Mayor. "We tald him to go ahead and get the dirt dumit ed in the park. A street in the vicinity was being graded," added the Mayor, with a quissient been in the courts for several years, and though it is slated for trial today in the supposed, of course, that the work would be done in a regular manner. Polytechnic Controversy.

Members of the Council Building Committee will meet in special session tomorrow night to consider the bids submitted i Council last Monday for the construction of the new polytechnic buildings. The wording of the advertisement for bids is claimed by the contractors to have been slighly ambiguous and there is a difference of opinion as to what some of the contractors were really bidding on. The advertisement called for bids on the work as a whole, and for separate bids on the main and the assembly halls. Bids which were at first supposed to the for the main and the assembly halls. Bids which were at first supposed to the for the main hall only are now claimed by the contractors to have included both halls. Yesterday aftermoon three members of the committee went over the bids with the architect. They found them so complicated that they were not able to arrive at a definite conclusion as to what the contractors themselves meant by the figures submitted. Friday night an opportunity will be given for matual explanations.

An investigation of records in the City Clerk's office showed the Mâyor had prophesied correctly. In some cases bills for more than the amount of that presented by Donegan had been segregated and passed. One of these, however, and the present Furk Superintendent.

This morning Donegan's bill will be presented to the Park Board, and an attempt will be made to find some way in which it can be paid by the gity. The provision in the city charter which has been violated by the Park Superintendent, and in spirit by the heads of other departments is as follows:

BICKERINGS OF AGED COUPLE.

Mrs. Lavina C. Richards was exam-Mrs. Lavina C. Richards was examined as to her sanity yesterday before Judge Wilbur. She is an old woman, and came into court wearing the old-fashoined style of Quaker-bonnet, that hid her face from view. With her tod-clied along her husband, walking with the aid of a staff, his face seamed with age. He had complained of his wife, and at his instance bhe was arrested. He said that she had been acting strangely for three or four years, and recently had accused him of wanting to kill the grandchildren who lived with them at East Whittler. Then, too, she had pointed at him with a butcher knife, and one night had tried to choke him while he lay in bed and when he processed she had bit him on the arm. That was the sum total of the old mun's complaint, spoken in feeble accents.

Mrs. Richards denied having ever

time when she and her husband were lovers.

From the statements made by the ron and his wife, who have been itving with the old people, it appeared that Mr. and Mrs. Richards have failed to get along. The son said that for seventeen years he could remember that they jangled and quarreled in a continual nagging kind of way.

While all this may have been true, it did not necessarily indicate insanity, and Mrs. Richards was ordered discharged.

CHARGED AGAIN. BATEMAN IN COURT.

BATEMAN IN COURT.

H. Thomas Jones-Baieman, the much-married defendant who was acquitted before Judge Trask on Tuesday, was arraigned before Justice Pierce resterday on the identical charge—that of having gone through the ceremony of marriage with Catherine Quin, he being a married man at that time to a wife still living and undivorced. It is alleged this time, however, that at the time of his marriage to Miss Quin, Bateman was the husband of Harriet Johnson, who lives at Chatham, Ontario.

Bateman appeared in court with his usual debonair air and was not half as rerviu as when upon the witness stand Tuesday. He telephoned for Attorney Adams, one of his counsel, and then his examination was set for Sattarday next. Ball was fixed at \$2000. Deputy District Attorney Fleming saying that he wished substantial ball, as it would be necessary-fee the prosecution to bring several witnesses from Canada to testify at the trial.

as it would be necesary-for the prose-cution to bring several witnesses from Canada to testify at the trial. Attorney Adams contended that as hall had previously been fixed at \$1200, he did not see why it should be in-creased, and the reason given by the prosecution for raising it was no rea-son at 4ll. He said that when a de-fendant expanse he does so not to inson at all. He said that when a de-fendant escapes he does so not to in-crease the expense to the State, but rather to diminish his own punish-ment, and the only purpose of ball is to assure the presence of the defen-dant.

Justice Pierce let the amount remain. He said that he did not pay
much attention to the District Attorray in fixing ball, but formed his own

The Sun Drag Co. Will Pay for Hyomel Themselves When It
Falls to Oure Catarrh.

"If I only knew it to be true, I would not hesitate a moment." This is a thought the average person has when reading the claims of some of the medicines that are advertised as cures for catarrh.

The results from the use of Hyomel are so remarkable in the cure of catarrh, that they seem beyond belief. The fact, though, that the Sun Drug Company, one of the best-known firm of druggists in this section, have so much confidence in the power of Hyomel to cure catarrh that they sell it under their personal guarantee to refund the money if the purchasers say that it did not help them, ought to convince the most skeptical that Hyomei can be relied upon to cure all catarrhal troubles, no matter how serious or deep-seated.

CHICAGO, May 25.—A dispatch to the Tribune from Emporia, Kan., says that William Allen White, editor of the Emporia Daily Gazette, has been offered the position of State Accountant, withcut pay, under Gov. Bailey. White has not yet accepted. The offer made by Gov. Bailey is the result of an editorial written by White last week in which he declared that he would gladly accept the place of State Accountant without a salary. He expressed the belief that a State Accountant could find pienty of work to do in checking up the expenditures of the State officers. The place of State Accountant was created by the Legislature of 1903, and pays a salary of \$2000 a year, but it has never been filled. WILLIAM A. WHITE'S NEW JOB.

Redondo Beach Selling Agent.

Buy beach property where there is something to warrant your investing. It is rank folly to pay high prices for sand lots where the only development is a promise, where your location is miles' from anywhere, where there are no waterworks, electric lights orgas, where transportation facilities are "paper" projects. Maps look well, promised improvements are good to gamble on—but for things "that are" you must come to Redonde Beach. At Redondo Beach your investment is backed by over \$1,000,000 worth of improvements ALREADY COMPLETED. You have electric lights and gas, you have a fine water system, you have two competing electric railway systems, you have the only place between San Diego and San Francisco where the Santa Fe Railway reaches tidewater, you already have an important commerce that is steadily growing you have more industrial enterprises than any other beach town in the southwest. And you will pay only a percentage of the prices asked for lots at some of the "promising" beaches—where promoter's promises form your only foundation for investment. foundation for investment.

Supplies aftont are small for the season, and the demand promises well. Here pts of atrawherries are very large, which is a factor in reducing prices on California oranges.

in the recent case of South Dakota against North Carolina may be the entering wedge to compel the settlement of all these long outstanding obligations.

The history of the bonds is interesting. They were for the most part issued for the purpose of building railroads in the South just prior to and after the Civil War. That conflict impoverished the States and they simply refused to meet their obligations. Years after a New York banker concocted a scheme by which he hoped to at least get even for the invalid paper he held of the State of North Carolina. The Constitution of the United States does not permit an individual to bring suit against a commonwealth, but one commonwealth had no lost the State of North Dakota, telling the officials that they were to be used for public improvements—if they could be collected. South Dakota had no law by which it was permitted to accept such an unusual gift, but it soon enacted one and accepted the bonds. The State then brought suit against the State of North Carolina and the Supreme Court of the United States has said the bonds must be paid. There is no doubt that the broker who originated the scheme held back more of the bonds than he so generously gave sway.—[Wall Street Journal.

Tonight's session will probably give birth to the "Southern California Choral Union," an aggregation whose combined votal force will number more than one thousand throats.

The idea originated in the conference chorus of 800, under the direction of Harry Barbhart, and is intended to create the nucleus of a permanent festival drganization, which may give larre works with strength, dignity and sufficient art to command respect from soloists of any caliber.

At tonight's meeting the choral societies of Whittier, Pasadens.

soloists of any caliber.

At tohight's meeting the choral societies of Whittier, Pasadena, Long Beach and Redondo will unite with a committee of singers from this city to carry out the plan. Three sub-organizations have already been formed, it is said, and a number of applications have been received from men in other towns who are anxious to join. Some of these have come from as far south so the southern end of Orange county. Once formed, the subdivision will be drilled by their local conductors, and any concerts which they may give on their own account will in no way interfere with the work of the whole.

## RAILROADS FIGHT FOR FRUIT TRADE.

(BY DIRECT WIRE TO THE TIMES.)

S AN FRANCISCO, May 25.—[Exclusive Dispatch.] The fruit-shipping season, now about to begin, gives promise of developing a bitter fight between the Southern Pacific and Santa Fé over the decision of the green deciduous-fruit traffic from Northern and Central California. Since the Santa Fé declared its intention, several weeks ago, to compete for green fruit shipments in what has hitherto been the exclusive territory of the Southern Pacific, the latter company has been employing every conceivable means to stifle the threat ened competition of its big riyal. Among other things it has declared war on all growers and shippers who dare to welcome the advent of the Santa Fé and in one case has ordered for the meeting it the special consider what part it would play in the present bitter war between the two rival carriers. Manager Leeds of the Santa Fé refrigerator-car line service appeared behitherto been the exclusive territory of the Southern Pacific, the latter company has been employing every conceivable means to stiffe the threatened competition of its big rival. Among other things it has declared war on all growers and shippers who dare to welcome the advent of the Santa Fê, and in one case has ordered a big shipping concern to remove its shipping house from the company's right of way, because it promised the Santa Fê a share of the business under its control.

The concern in question is the Cal-

LONG BEACH. May 25.—With simple but reverent ceremonies was laid the corner-stone of the First Christian Church, corner Fourth street and American avenue, this morning. The stone is a triangular block of Arizona granite, and on one side is chiseled the simple inscription, "Erected by the Disciples of Christ." The copper box placed in the stone contained a copy of several publications of the Christian church at large, copies of the Los Angeles Times and Long Beach Tribune, Press and News, and the church bulletin, "Advance," a photograph of the congregation assembled around their old church on the site of the new edifice, and a history of sembled around their old church on the site of the new edifice, and a history of the church from its organization to the present day, compiled by William T. Kendrick of Loa Angeles, one of the organizers of the church, and Rev. Frank K. Lewis. The exercises opened with a hymn, "I Love Thy Kingdom, Lord," by the sudience. This was followed by a brief prayer by Rev. E. S. Conner of Los Angeles, Rev. Grant K. Lewis followed with a few brief dedicatory remarks, and William T. Kendrick sketched in detail the history of the Long Beach church as he knew it. After this, the copper box and its contents were placed in the stone, sealed with a heavy slab and with a benediction the ceremonies ended. Work on the new church is progressing rapidly and the congregation expect to hold their first service therein some time during the moth of August.

will continue its sessions prough the week Mrs. Anna Wolfskill president, opened the meeting with grayer service and Mrs. C. Price Hown, matron of Home Toberman Deaccaess Home, made an encouraging report of the work of the society during the past year. The report of the treapurer, Mrs. Joseph Hamilton, showed a decided financial gain.

The most attractive feature of the morning session was the elaquent address by Mrs. Bookwaiter, returned missionary from Africa.

Most of the afternos was occupied by reports from the various auxiliaries. The Carpinteria society reported the greatest gain during the past year. Among the addresses by returned missionaries was one by Jackson B. Cox of Mexico.
